

# Pay Attention to County Dumpster Rules

## *Mandatory Fees May Be Coming*

The Stewart County Commission requests all residents and guests in the county to follow the posted rules at our many convenience dumpsters.

When people leave things like building materials, animal carcasses, and restricted chemicals at dumpsters, then someone has to remove the materials before they can be put in the garbage truck.

When items get stacked on the ground rather than in dumpster, then the garbage truck can't get up to the dumpster.

Each added step draws more money out of the county's tax coffers.

The costs of waste management have grown so much that the Commission will have to take the step of adding a mandatory waste-management fee on the citizens *unless* our citizens and guests follow the rules. Please help us out. How?

First and foremost, follow the posted rules yourself. If you see someone breaking the rules, DON'T put yourself in danger. Get to a safe place and let the Stewart County Sheriff's Office know what you see. Call 229/838-4311.

Thank you.

Mac Moye, Manager

Stewart County Commission
